

SV_1 (View)

EMPLOYEE (NAME, ADDRESS, CITY)

SV_2 (View)

EMPLOYEE (NAME, CITY, PHONE)

SP

NAME	ADDRESS	CITY	PHONE
Brown	King's Road 15	London	<i>Null</i>
Rossi	Via Veneto 7	Rome	<i>Null</i>

The diagram shows the mapping of data from the two views to the storage pool (SP). Red arrows originate from the SV_1 view and point to the NAME, ADDRESS, and CITY columns of the SP table. Blue arrows originate from the SV_2 view and point to the CITY and PHONE columns of the SP table. The SP table contains two rows of data: one for 'Brown' in London and one for 'Rossi' in Rome, with NULL values for the PHONE column.
